

I benefit from listening to XM Satellite Radio and its traffic and weather channels, both locally and on trips. XM Satellite Radio provides for excellent information, in clarity and in content, that far exceeds what I have found to be available from stations represented by the National Association of Broadcasters (NAB). I pay for these services and I object to any move to allow the NAB to dictate what I should be permitted to hear and from whom it should be provided. I respectfully urge the you, the FCC, to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve.
